Microsoft

LONDON, December 31st, 2023

Dear Microsoft Recruiting Team,

It is with great enthusiasm that I am applying for Engineer position at Microsoft.

At the cutting edge of technology, with more than 1000 patent applications filed in 2022, your company uses challenging ambitious Machine Learning research topics such as coreference resolution for question solving via the SIRI voice command.

I am convinced that my background, my determination, my tenacity, and my curiosity will allow me to contribute significantly to the Microsoft team.

Thank you for your time. I look forward to hearing from you soon.

Sincerely,

MANU
