Dear Apple Recruiting Team,

It is with great enthusiasm that I am applying for boss position at Apple.

At the cutting edge of technology, with more than 10000 patent applications filed in 2022, your company uses challenging ambitious Machine Learning research topics such as coreference resolution for question solving via the SIRI voice command.

I am convinced that my background, my determination, my tenacity, and my curiosity will allow me to contribute significantly to the Apple team.

Thank you for your time. I look forward to hearing from you soon.

Sincerely,

MANU
